

CU Local Biz.com

Testimonials

We have had a website for several years now. We have had three different companies manage our website through the years, and we were not happy with any of them. You sign up with them, and except for seeing your bill in the mail, pretty much never hear anything from them again. It seemed that all they were interested in was collecting their fee. Then CUlocalbiz.com came along.

From the first time I met with them, I liked what I saw. They were very professional and knowledgeable with their presentation, as well as being very friendly and polite without overdoing it. They showed a willingness to help advertise our business over the Internet, and that is something I never experienced from the other companies that managed our website. Since most of our business is local, the idea of advertising through a website that targeted the Champaign-Urbana area was very appealing. The thing I am most impressed with is the service. They are only a phone call or an email away, and they always respond in a very timely matter. Any problems and/or changes that I have had with my website have been corrected almost immediately. They are even willing to show us how we can make changes to our website right from our office computer. The CUlocalbiz.com website is as professional as any website I have ever seen.

If you are a small business in the C-U area, you can't go wrong with CUlocalbiz.com. Joe and Jason are really great to work with, and they will bend over backwards to make sure that your needs are met. I highly recommend CUlocalbiz.com to any business who wants to have their website managed in a professional and efficient manner.

Sincerely,

Glenn Johnson
Co-Owner of Awards Ltd.
